LONDOLZI

WHAT TO PACK

Weather

Check what season you are travelling to Londolozi in.

With the months December through March being the height of our summer these are, therefore, the hottest months.

March through May is temperate as the season changes from summer to the start of winter and the days are mild and warm with the nights becoming cooler.

June and July are mid-winter in South Africa and can be some of the best months for game viewing. During this time the days are warm and balmy, while the evenings and early mornings are cold.

For the months August through November the weather is temperate and signals the change of season from autumn into summer.

Clothing

We advise that you bring the following:

*A pair of long pants,
A long sleeve cotton shirt, cotton t-shirts or vests,
Comfortable pants, shorts and skirts and summer dresses for the ladies
Walking shoes or sandals and hiking boots or suitable trainers
Wide Brim Hat
Bathing suit
Windbreaker*

In the summer, we suggest bringing the following:

*Lightweight shorts and t-shirts
Summer dresses for the ladies for around the camp
A light fleece or long sleeve shirt for the sun.*

In the winter, we suggest bringing the following:

*A very warm jacket, beanie and scarf for the morning game drives.
Long sleeve shirt with thermal under garments.*

Note: No formal clothing is required for mealtimes, although Bomas and decks are smart-casual and some guests choose to freshen up for dinner.

We do provide an inclusive laundry service if you require this during your stay.

Equipment

We suggest bringing a camera, lens and binoculars for your safari. We understand that this equipment can often be a bit cumbersome so if you would prefer to rent it during your stay at Londolozi [CLICK HERE](#)

Sunscreen

Our rangers have sunscreen with them on game drives and it is also available at our Londolozi Living shop. For preferred labels we advise bringing your own. A high SPF is recommended.

Malaria

We are in a low risk malaria area. Please consult your doctor or pharmacist for further information on prophylaxis. In all camps, and on game drives, we offer mosquito and insect repellent.

Reference books

Each camp has a variety of bird, mammal and reptile books if you would like to read up further on the animals you see whilst on safari. To download a Bird and Mammal checklist [CLICK HERE](#).
